## **Environmental Protection Policy**

*T.D. Smith Transport is directly striving to ensure that we recognize environmental protection and our carbon foot print. We are committed to providing liquid and dry bulk transportation to the industries in need in such a manner to ensure that we are operating a safe and healthy workplace for all employees and/or visitors while continuing to decrease the impact on our environment. As a company we will continue operating in compliance with federal, provincial and municipal environmental legislation while continuing to practice the elimination of pollution and reducing carbon footprint in all that we do.*

**We Will;**

- *As a company we will continue operating in compliance with federal, provincial and municipal environmental legislation while continuing to practice the elimination of pollution and reducing carbon footprint in all that we do.*
- *Due to the ever changing environment, we as a company ensure we have the ability to observe and comply with any unforeseen issues that arise.*
- *Ensure all employees of T.D. Smith are trained and educated when coming on board with our company and that everyone is kept up to date with all legislations and ongoing changes within the company itself.*
- *Avoid use of unnecessary hazardous materials and products and seek substitutions when feasible; however if necessary unsure all steps and measures are taken for such hazardous materials to be used stored and disposed of correctly.*
- *Strive to integrate the consideration of environmental concerns and influences into all of our decision making and activities.*

Sincerely,
