T.D. Smith Transport  
540 Sligo Road East  
Mount Forest, ON  
N0G 2L0

It is with great pride that we have had the opportunity to build and maintain a solid business relationship as an equipment supplier to T.D. Smith Transport.

Mike & all of the staff at T.D. Smith are a pleasure to work with and their commitment to quality is evident in all aspects of their business relationships.

In line with their proud company image, T.D Smith has purchased several Freightliner trucks as their unit of choice to meet their trucking requirements. These are customized to ensure the ultimate in safety, reliability and driver satisfaction. The units are equipped with hydraulic pumps and food grade product pumps, providing them broad versatility when required.

Freightliner has committed to industry leading innovation, always striving to lower the real cost of ownership for customers through fuel efficiency, quality, extended warranties and most importantly, uptime. T.D Smith recognizes that the strong local presence Currie Truck Centre & Leasing and Currie Heavy Towing represent; combined with the backup that the vast North American Dealer Network Freightliner provides, is critical to ensuring maximum uptime.

The result is that T.D. Smith Transport has cost effective, reliable equipment that allows them to maintain the standard for excellence that they've committed to as part of their business mandate and we are immensely proud to be a small part of assisting them in their efforts.

Yours Truly,

Don Currie

**TD Smith and Tremcar, partners in transporting your liquid bulk!**

Dedicated to customer satisfaction, we are proud of working with TD Smith in providing them with quality tank trailers. We are certain that their customer commodities are preserved in an optimal environment and transported safely to its destination. Confidence in our top of the line tank trailers and our custom capacities to manufacture a unit adapted to the products they carry is the reason why TD Smith has trusted Tremcar for over 20 years.
